

HSK 6 Writing Framework

Practical writing structure, 300-character opinion essay framework, reusable Chinese expressions, and a model essay with teacher comments.

How to use this resource:

Do not memorize the model essay word for word. Use the structures to plan your own answers, then rewrite with different topics. HSK 6 writing rewards clear structure, appropriate register, complete task response, and controlled vocabulary.

1. What HSK 6 Writing Tests

The new HSK 6 writing section has two tasks in 45 minutes:

Task	Length	What it tests	Main risk
Task 1: practical writing	At least 150 Chinese characters	Task completion, information order, audience awareness, practical written Chinese	Missing required details or writing in the wrong tone
Task 2: opinion essay	At least 300 Chinese characters	Clear position, logical reasoning, examples, paragraph organization, formal style	Vague argument, no examples, weak conclusion, spoken-style wording

2. Task 1 Practical Writing Framework

Use this structure when the prompt asks for a notice, message, email, application, recommendation, introduction, or online post.

150-character structure

1. **Purpose:** explain why you are writing.
2. **Core information:** give the most important details first.
3. **Requirements or conditions:** list what the reader must know.
4. **Action:** say what the reader should do next.
5. **Closing:** use a natural, polite ending.

Sample Task 1: roommate post

Prompt type: You rent a two-bedroom apartment and need to post online to find a roommate. Include roommate requirements and room facilities. At least 150 characters.

本人现租住一套两居室, 因另一间卧室空出, 想找一名室友合租。房子位于地铁站附近, 交通方便, 周围有超市、餐馆和健身房。空房间采光较好, 配有床、书桌、衣柜和空调, 厨房、卫生间、客厅可共同使用。希望室友作息规律, 爱干净, 不在室内吸烟, 能按时分担房租和水电费用。男女不限, 学生或上班族均可。如有兴趣, 请先简单介绍自己的情况, 并通过微信与我联系, 欢迎看房。

Teacher comments:

- **Task completion:** includes room facilities, location, requirements, shared costs, and contact action.
- **Register:** practical and natural; not too casual, not overly formal.

- **Structure:** purpose -> housing details -> roommate requirements -> contact instruction.

3. Task 2 Opinion Essay Framework

For HSK 6 opinion writing, do not simply list ideas. Build a clear argument. A safe structure is:

300-character structure

1. **Position:** answer the question directly.
2. **Reason 1:** explain the first major reason.
3. **Example:** give one concrete example from life, school, society, or work.
4. **Reason 2 or balance:** acknowledge the opposite side or add a second reason.
5. **Conclusion:** restate your view with a clear final sentence.

4. Model Essay with Teacher Comments

Official-style prompt: 科技极大地改变了我们的生活方式, 你觉得科学发展是会促进还是抑制人的全面发展? 请就这个话题谈谈你的观点, 字数不少于300字。

我认为，科学发展总体上会促进人的全面发展，但前提是人能够主动、合理地使用科技，而不是被科技支配。

首先，科技扩大了人获取知识和发展能力的空间。过去，一个人想学习某门课程，往往受到地点、时间和资源的限制；如今，通过网络课程、电子图书和智能翻译工具，人们可以更方便地接触不同领域的知识。对学习者来说，这不仅提高了效率，也激发了探索世界的兴趣。

其次，科技改善了生活条件，使人有更多精力追求精神和社会层面的发展。例如，医疗技术的进步延长了人的寿命，交通和通信技术缩短了人与人之间的距离，人工智能也能帮助人们完成重复性工作。这样一来，人们可以把更多时间用于创造、交流和自我提升。

当然，科技也可能带来一些问题。过度依赖手机和算法，可能削弱人的独立思考能力；长期沉迷网络，也会影响身心健康。因此，科技本身并不能自动保证人的全面发展，关键在于人是否具备判断力和自我管理能力。

总的来说，科学发展为人的成长提供了更多机会。只要我们保持主动选择和理性使用，科技就不是限制人的力量，而是帮助人不断完善自己的工具。

Teacher comments:

- **Clear position:** the first sentence answers the prompt directly and adds a condition.
- **Logical structure:** knowledge development -> life improvement -> risk/balance -> conclusion.
- **Examples:** online courses, e-books, translation tools, medical technology, transport, communication, AI.
- **Formal but readable style:** uses 总体上, 前提是, 首先, 其次, 当然, 因此, 总的来说.
- **Balanced argument:** it does not ignore the negative side, but keeps the main position stable.

5. Common HSK 6 Writing Problems

Problem	Why it hurts your score	Fix
No clear position	The examiner cannot see your answer to the prompt.	State your view in the first 1-2 sentences.
Only abstract opinions	The essay feels empty and repetitive.	Add one concrete example from study, work, society, or daily life.
Spoken-style writing	HSK 6 expects controlled written Chinese.	Use connectors such as 首先, 其次, 因此, 然而, 总的来说.
Too many fancy words	Wrong word choice is worse than simple correct language.	Use familiar HSK 5-6 vocabulary accurately.
No conclusion	The essay feels unfinished.	End by restating the position and adding a final judgment.

6. Weekly Practice Plan

Minimum weekly writing

- 1 practical writing task, 150-200 characters
- 1 opinion essay, 300-400 characters
- 1 rewrite after correction
- 1 list of 10 useful expressions from your corrected essay

Best correction routine

- Check task completion first.
- Then check paragraph logic.
- Then check grammar and word choice.
- Finally rewrite the essay without looking at the original.

Next step:

Write one 300-character essay using the framework above. If you want teacher feedback, send the essay to Mandarin Zone and ask for a structure, grammar, vocabulary, and register diagnosis.
